

Terminal Crimping Machine with Vibration Plate Bulk (WPM-R8B)

Specifications

Wire stripping, Terminal crimping and inner tower assembling filling at one time; quality guarantee and efficient

Specifications:

Wire stripping, Terminal crimping and inner tower assembling completed at one time; quality guarantee and efficient

Advantages:

- 1. Wire Stripping & terminal crimping machine adopt the advanced technology from Japan & Germany.
- 2. Wire stripping & Terminal Feed/Terminal crimping /Assembling Inner tower at one time.
- 3. Saved 3-5 labor: wire stripping twice, insert in wires to terminal ends, punching & cutting the connecting part.
- 4. Professional team of R&D and mechanical engineer to ensure the stable quality
- 5. Competitive price
- 6. Built in Light Focused on Crimping Tooling
- 7. Easy Opening Safety Guard and Quick Release Base

Applicable cable:

SPT-1.SPT-2,NISPT-1.NISPT-2,VFF,HVFF,HVCTFK,H03VVH2-F,H05VVH2-F,RVV(Do not share a single insulation line)

Parameter table product:

Model name: bulk terminal crimping machine

model of machine	WPM-R8B	Crimping connection speed	1,200- 1300pcs/hour
crimping force	2T-4T	voltage	AC220V/50HZ
pressure of air source	0.5-0.8Mpa	weight	360KG
dimension	1450mm×850mm×1480mm
